

# Gearslutz Joint Bank Account

These are statements from our joint bank account at Abbey National Bank from the period Jan 2007 to May 2007. The Defendant has since redirected all monies to an account unknown by me. Less than £1 remains in our account. As a joint partner on the account, I had full access to online banking, cash machine and debit card.

The Abbey online banking stuff did my head in - its a shit user interface and worked crappy on my Mac...I have applied for about two repeat passwords - lost them and still haven't ever managed to get it going.

When the new partnership account finally comes through - you can try it (involves 3 passwords etc) and can teach ME how its done.
